Bradford Swissport Ltd. GHG Management Policy Commitment

BSL is committed to scaling up our efforts at emissions reduction across all our operations. In 2026, our London Heathrow operations, Bradford Swissport Ltd. (BSL) embarked on the GHG Management Policy Commitment. The Commitment is a formal recognition of a Bronze-level partnership with the Airport Partner Carbon Recognition program.

BSL has developed a Scope 1&2 GHG inventory, emissions reduction target, and target management plan. Specifically,

- *Base Year (2025) Scope 1&2 Emissions: 511 mtCO2e*
- *2025-2030 Reduction Target: 8%*
- *Target Year (2030) Scope 1&2 Emissions: 470 mtCO2e*

In keeping with full transparency and demonstrable commitment of this undertaking, BSL will publicly disclose Scope 1&2 emissions annually and inform stakeholders of its progress toward its 2030 carbon reduction target.
